Wandsworth Primary Panathlon

On 12 July 2023, we took 7 of our students to the Wandsworth Primary Panathlon.

The Panathlon Foundation is a charity that gives children with disabilities and special needs in England and Wales opportunities to engage in competitive sport that they are so often otherwise denied.

The Primary Panathlon is then an opportunity in which school students with special educational needs or low engagement in PE could compete against other schools. Our students competed in 8 adjusted activities and were awarded points at each rotation.

The points were then tallied up.

Our remarkable students competed with such joy and support for one another and were rewarded for their efforts by totalling the most points and coming home with 1st place! Great work superstars. All are welcome to view our trophy in the office.
