Local Area Walk
RB Spring 2024

Reception Bilingual have been learning about Journeys this term so we went on one of our own! We learnt that our local area in London has been changing over time and people lived differently in the past. On our walk, we spotted clues about life in the past on the buildings and on the pavements, such as Victorian post boxes, a stink pipe and cobblestones. We looked at maps of the area we were standing on that dated back 300 years and discovered that Lavender Hill is named after the fields of lavender that used to grow there.

During our walk we also noticed seasonal changes and were able to spot trees with blossom in different stages of blooming.
