Year 2 Art – 8th May 2024

The focus of the final project this year was to build an amazing 3D spaceship using cardboard tubes. To complete the task, pupils used oil pastels, paper and watercolour to create a 2D landscape of stars and sky. Year 2 gained an understanding of how creativity is utilised in every aspect of our lives, with a focus on design. Pupils had the opportunity to design their own spaceship, beginning with a simple sketch and then bringing it to life.
