Design & Technology
December 2022

In Year 2 this term, we embarked upon an ambitious project in our Design & Technology lessons! Inspired by the fabulous machine from *On Sudden Hill* by Linda Sarah and Benji Davies, we had a lot of fun designing and building our own go-karts!

We used recycled materials and assembled our chassis, axles and wheels to create our vehicles. We then decorated them to suit their purpose and had a go at using them in the classroom!
