Year 5 Kew Gardens

Year 5 took a trip to Kew Gardens in Spring 2 to delve deeper into their biomes unit. The class were able to look at a variety of biomes and how the varying conditions impact their different wildlife.

Pupils were able to view temperate environments, as well as arid conditions and even got the opportunity to look at carnivorous plants! The children finished their trip by taking a skywalk, through which they were able to observe the local forest biome around them. Some of them conquered a fear of heights in the process.
